EXPERIENCE

Senior Full Stack Engineer

Mar 2022 - Present

Flowcode

Lead for internal developer experience and external integration initiatives.

- ❑ Monorepo consolidation project of 8 cross functional repos utilizing TurboRepo
- ❑ Optimization of all test suites and builds across monorepo
 - ❑ Average run time of 1,100+ unit and e2e tests: 35 minutes -> 4 minutes
 - ❑ Average HMR load time: 30 seconds -> 6 seconds
 - ❑ Average deployment time: 32 minutes -> 18 minutes
- ❑ Planned, scheduled, and built integrated app for Canva (canva.com)

Lead Full Stack Engineer

Aug 2020 - Mar 2022

Allbound

Core contributor to new product features, legacy code upcycling, and project management.

- ❑ Front End infrastructure project:
 - ❑ React 10 -> React 16
 - ❑ Legacy class components -> functional components & hooks
 - ❑ Traditional Redux -> RTK slices
 - ❑ Raw promises -> RTK queries
- ❑ Refactored API business logic: PHP 5 & CodeIgnitor -> Laravel & PHP 7
- ❑ Monorepo consolidation project utilizing the NX toolchain and Hygen for code scaffolding

Full Stack Engineer

Oct 2018 - Apr 2020

International Legal Technology Association

Lead the development of new websites, landing pages, and mobile applications utilizing Angular 2+ and assisted in a large scale data migration into Salesforce.

- ❑ Utilized Angular 2+, Karma, Apache Cordova, and Force.js to build, test, and deploy to browser, Android, and iOS
- ❑ Assisted in the migration of 20+ years worth of accumulated customer data into Salesforce CRM

Front End Developer

Apr 2016 - Apr 2018

All Digital Solutions

Created unique digital marketing solutions, websites, and automation utilities that were distributed to 50+ clients.

- ❑ Developed multiple hybrid mobile applications using Angular and Apache Cordova with authorization, networking and live notification systems
- ❑ Built a headless CMS solution to allow clients to remotely manage digital signage

Full Stack Engineer, Project Manager

May 2014 - Present

All Digital Solutions

Completed 40+ contracts, coordinated with international teams, and efficiently tasked myself and other engineers w/ multiple projects in-progress simultaneously.

Currently available for modern JavaScript or PHP oriented projects, go to brunosala.com to view my complete CV.
